

# Environmental Policy

---

## Scope

All activities undertaken at Farnborough Airport associated with services to aircraft and customers, management of owned infrastructure, and third-party operations on site. It encompasses aircraft movement on the ground, during initial climb and final approach.

---

## Policy statement

Farnborough Airport is the UK's only dedicated private business aviation facility, based in Hampshire. From the multi-award-winning hangars and terminal building, Farnborough Airport provides premium services including aircraft handling, hangarage, flight briefing and world class passenger facilities.

We understand our business activities have the potential to impact the environment and recognise the importance of a proactive approach to environmental management, which includes integration into business planning and strategy as well as existing day-to-day operations. Farnborough Airport is committed to ensuring the highest standards of environmental performance and strives to be at the forefront within the aviation industry.

Farnborough Airport has a dedicated environment management team and operates to an ISO 14001 certified Environmental Management System (EMS). This ensures the Airport's environmental interactions and impacts are identified and managed within a structured, accountable and transparent system. Through our commitment to enhanced environmental performance, we provide necessary resources to achieve continual improvement of the EMS.

By implementing an EMS, Farnborough Airport commits to prevent pollution and maintain the highest levels of environmental protection. We fulfil our compliance obligations and ensure best practice where appropriate.

## Key commitments for environmental management

- Minimise noise related annoyance in the community
- Minimise environmental impact through monitoring and efficient use of all resources
- Maintain zero waste to landfill and maximise segregation and recycling
- Develop resilience to potentially significant climate change impacts
- Protect and where practicable enhance the Airport's natural environment
- Engage with all stakeholders and promote environmental awareness

This policy is published internally and externally for the benefit of those with a key role to play in assisting Farnborough Airport achieve its environmental goals, including staff, tenants and third-party service providers. These key parties are provided with information about environmental procedures and receive training as appropriate. The policy may be viewed on the company website and intranet, and in hard copy at the Terminal building, Control Tower, Hangar One and Two, the GSF building, Meadow Gate and the Fire Station.

Responsibility for this policy lies with Farnborough Airport's senior management who make periodic review to ensure alignment with business strategy.
